

2<sup>nd</sup> International Conference  
*on*  
Environmental Pollution and Remediation  
(Montreal, Canada)

## ABOUT

The International Academy of Science, Engineering and Technology (International ASET Inc.) is pleased to organize the 2<sup>nd</sup> International Conference on Environmental Pollution and Remediation. Environmental pollution is considered the most important threat to human being and other creature lives. Every day at different places, thousands of various types of pollutants and chemicals from different sources are exposed to the environment. These sources include industries, vehicles, and even human activities like cooking. Pollutants affect different environmental resources such as air, water, soil, and generate serious danger to the ecosystem. These encountered problems require immediate scientific attention to find appropriate and cost effective solutions.

This conference will provide a golden opportunity to develop new collaborations and gather world experts on the different topics including pollution detection, environmental remediation, and pollution prevention. Through the 2nd conference a great opportunity to share knowledge and expertise will be created taking advantage from the synergy of the 1st conference. The ICEPR'12 program will include invited keynote talks, oral presentation sessions, and poster sessions.
